Profile

Motivated IT undergraduate with a strong foundation in software development, UI/UX design, and system administration. Skilled in problem-solving, teamwork, and technical analysis, with the flexibility to contribute across software engineering, full-stack development, project management, business analysis, and quality assurance. Eager to apply knowledge through an internship or entry level role at a forward-thinking organization, while continuously growing as a resourceful and impactful IT professional.

Education

2023 – Present Malabe	SLIIT (Sri Lanka Institute of Information Technology) BSc (Hons) in Information Technology Specializing in Information Technology
2016 – 2020 Kurunegala	Wayamba Royal College G.C.E. O/L & G.C.E. A/L - Grade : 2 B,C(including ICT)

Technical Skills

>Programming Languages: C,C++Java JavaScript, PHP, Python	>Database: MySQL,MongoDB	>Web Development: HTML, CSS, React, MERN
>UI/UX Design: Figma	>Tools & Platforms: Git, VS Code, Eclipse IDE, Android Studio, Postman	

Projects

07/2025	Cristal Beauty-MERN Stack Beauty Equipment Store (Individual) This is a full-stack beauty care equipment online shop built using the MERN stack: MongoDB, Express.js, React.js, and Node.js. It allows users to browse, purchase, review and customize beauty care equipment through a modern and responsive UI. Customers can easily explore a wide range of beauty and skincare tools, while the admin has full control to manage products, handle customer requests, process orders, and oversee the entire store's operations.
02/2025	SportsZaga-MERN Stack Sports Equipment Store (Group) This is a full-stack sports equipment management and rental web application built using the MERN stack: MongoDB, Express.js, React.js, and Node.js. It allows users to browse, rent, review, repair, customize and manage sports equipment in a modern and responsive UI. Also admin can handle all the user requests for users.
07/2024	ScholaHub - Online School Information Management System (Group) This web app is a full-featured School Information Management System (SIMS) designed for online use. This dynamic web application is developed using Java for the backend, HTML, CSS, JavaScript for the frontend, and runs on Apache Tomcat 10.1 with MySQL as the relational database

Willow Lake - Hotel Reservation Booking System (Group)

A basic hotel room booking system using HTML, CSS, Java Script, PHP & MySQL. Users can view, search, book rooms and contact admin. Admin can manipulate all CRUD operations in the system. Such as handling notices and users.

Extra-curricular Activities**• Cricket**

Captained the school Under-16/17 team, which helped me build leadership skills and learn how to work closely with others toward a common goal.

• Softball Cricket

Currently both playing in and organizing tournaments for a local sports club, which has given me the chance to develop initiative, planning skills, and a stronger sense of responsibility.
