SUMMARY

Motivated and enthusiastic undergraduate pursuing a Bachelor of Applied Information Technology with a strong passion for Full Stack Web Development, Artificial Intelligence, and Software Engineering. Experienced in developing modern web applications using Laravel, React.js, Python, and MySQL through academic and personal projects. Skilled in designing RESTful APIs, database management, AI integration, and responsive web development. Seeking an internship or trainee software engineering opportunity to apply technical knowledge, enhance practical experience, and contribute to innovative software solutions.

SKILLS

Programming: PHP, Python, JavaScript, HTML5, CSS3
Frameworks: Laravel, React.js
Database: MySQL
Tools: Git, GitHub, Docker, Power BI, MQTT, Tableau
Other: REST API Development, Face Recognition, AI Integration, Responsive Web Design
Technical Skills: REST API Development | Full Stack Web Development | Database Design | Face Recognition | Responsive Web Design

LANGUAGES

Sinhala: (Native)

English: (Professional Working Proficiency)

PROFESSIONAL EXPERIENCE

Undergraduate Software Developer & Data Analysis,
Self Projects & University Projects

- Developing full-stack web applications using Laravel and React.js.
- Designing and implementing RESTful APIs.
- Working with MySQL database design and optimization.
- Integrating AI-based face recognition systems.
- Using Git and GitHub for version control.
- Collaborating on academic software development projects.

EDUCATION

SLTC Research University , *Bachelor of Applied Information Technology*
2026 | SLTC Research University,Ingiriya Road, Padukka

- Studying Software Engineering, Artificial Intelligence, Database Systems, Cloud Computing, UI/UX Design, Business Intelligence, Data Structures & Algorithms, and Web Application Development.
- Gaining practical experience through academic and real-world software development projects.

PROJECTS

VisionTrack Edu 2.0, *AI CCTV Attendance System*
01/2026

Designed and developed an AI-powered attendance management system that automatically recognizes students through CCTV cameras and records attendance without manual intervention.

Key Responsibilities

- Developed Laravel backend and REST APIs.
- Designed MySQL database architecture.
- Implemented automatic attendance marking.
- Developed student management features.
- Managed project source code using Git and GitHub.

Key Features

✓ AI Face Recognition ✓ CCTV Integration
✓ Student Management ✓ Attendance Automation
✓ Attendance Reports ✓ REST API Integration

DECLARATION

I hereby declare that the information provided in this resume is true and accurate to the best of my knowledge and belief.
